XTS TRAIL

XTS TRAIL supports you there, where other safety shoes give up. Inspired by the challenges of trail running, XTS TRAIL offers optimal cushioning, grip and stability in every area and field of application. Innovative features as the IMPULSE.FOAM® sole technology, FITFRAME® reinforcement elements and the COA.TEX® membrane make the XTS TRAIL the perfect companion for on- and offroad.

TRAIL INSPIRED. WORK READY. ALL TERRAIN.

S1P ESD HRO SRC
Art. No. 64.520.0

Upper: hard-wearing textile fabric with sandwich-mesh and FITFRAME® elements

Colour: grey-pink (804)

Sizes: 36 - 42

Innovative designs, high functionality and a low weight - with FITFRAME® no problem. Seamlessly welded reinforcements combined with breathable textiles ensure maximum breathability and comfort. There is a high flexibility, as there are no seams in flex areas. Furthermore, FITFRAME® means high resistance, an adaptable, perfect fit, more stability and support.

The small weight also offers a delightful wearing comfort.

The long lasting, water-repellent and wind-resistant hightech membrane is particularly breathable and protects the foot with a microporous mesh structure against waterlogging. It transports sweat and moisture to the outside.

FEATURES OF ALL XTS TRAIL STYLES:

Protection: fiberglass toe cap and non-metallic, flexible FAP®-midsole

Extra: ESD, non-metallic, breathable functional lining, comfortably padded collar and dust tongue, anatomically formed footbed

Sole: XTS TRAIL - high quality, 300°C heat and slip-resistant rubber outsole with IMPULSE.FOAM® midsole for maximum cushioning, stability and comfort

All styles with this icon have a special ladies fit and last in sizes 36-40.
